

## Progress 12 Test Case:

### Result:

- As well as the home screen recently seeing great growth. The challenge and translator modes have since both seen great progress. The translator is now properly working with translations arising as well as the challenge function loading (it didn't previously) due to debugging and working with great similarity to the translator mode (I will change this, so it works differently but have messed up the functions at the moment).

Challenge Mode.

Translator Mode.
